Thompson is coming west and may offer Ogden one of his surprises.

## BOYS ARE ALLOWED TO GO ON THEIR OWN RECOGNIZANCE

When E. F. Shupe and A. P. Brown, two well known young men of Ogden, were arraigned before Judge N. J. Harris of the district court this morning, to plead to the charge of burglary in the second degree, a motion was made that the time for taking the pleas be continued for the term and that the defendants be released on their own recognizance. The motion was granted and September 15 set for them to plead.

Judge Harris stated to the young men that he had personally investigated the case against them and also had learned of their past lives. The judge knew their families to be among the most highly respected in the community and had found nothing seriously wrong with the defendants' conduct, for which reasons he was not averse to releasing them on their own recognizance until next fall.

The court impressed upon the boys, however, that the order of the court was tantamount to placing them on probation, and that they would be expected to report in the meantime. They were admonished to so conduct themselves that it would not be necessary for them to be placed on trial on the serious accusation against them, and that, if their presence was required on the morning of September 15, they would not fail to appear.

The young men were advised that their conduct between this time and September would have much to do with the future action of the court toward them, and that they would again be instructed as to whether they should appear and plead to the information, or whether the information would be dismissed.

It will be recalled that the defendants were first arrested for taking a joy-ride in an automobile without permission, and, subsequently, charged with burglarizing the Kern Cafe on Washington avenue, April 26. The defendants hurriedly left Ogden the night of the burglary and were arrested in Pocatello and returned to Ogden to face the charge. The boys stated to Judge Harris this morning, however, that they had talked over their misconduct in Pocatello and had concluded to return home and make amends, when they were arrested. They said they were on their way to the train when the officer arrested them in the Idaho city.
